Summary	<p>Coding Dreams into Digital Reality</p> <p>As a skilled FullStack Developer with an impressive portfolio of 20+ live projects, I bring a blend of cutting-edge technology and practical application to the table. My expertise lies in developing dynamic and responsive web applications using MongoDB, Express.js, React, and Node.js, showcasing my ability to create seamless user experiences. With a passion for problem-solving and a talent for turning ideas into functional realities, I am not just seeking freelance opportunities but am also poised to revolutionize digital landscapes with innovative solutions.</p> <p>Currently based in Indore, India, I graduated as a Computer Engineer in 2021. Over the past 3 years, I have delved deep into the tech wilderness, mastering the MERN stack while navigating through AWS, Azure, Docker, and Kubernetes. My professional journey is characterized by a strong portfolio of 20+ live projects, where I have consistently demonstrated my ability to create dynamic and responsive web applications.</p> <p>I am fluent in both technical and non-technical communication, ensuring clear and effective collaboration with team members and clients. My strong problem-solving skills and proactive approach to addressing challenges enable me to deliver innovative and efficient solutions. I thrive in an Agile Scrum environment, turning chaos into a choreographed dance of user stories and sprints.</p> <p>I am excited to bring my expertise and enthusiasm to new projects and opportunities, leveraging my skills to create impactful and innovative digital solutions.</p>
